## CONTINUOUS IMPROVEMENT OF TEACHING AND LEARNING QUALITY WEBINARS

**TITLE/ TYTUŁ:** Effective Early Language Learning

30/09 / 2020

**DESCRIPTION/ OPIS:**

In this webinar you'll see a few tips for working with young beginners the way they will enjoy (and you too).

I would like to present a technique of teaching English without translating or interfering with mother tongue from their very first lesson. Immersion into English-only environment can help children acquire the language in a natural and effective way. I'll speak about the approach that uses activities composed and interlinked profoundly in the first three lessons in lives of young beginners.
