

Thank you very much for an extremely inspiring presentation. One of the best if not the best I've seen. A perfect blend of theory and practice. Thank you for lots of useful information making me realize what I do well and what I might/should improve. Thank you for plenty of advice to be put into practice. I took notes but it would be easier with the PDF slides.

Could you please send me your presentation "The Old, The New and the New Old"?
