CONTINUOUS IMPROVEMENT OF TEACHING AND LEARNING QUALITY WEBINARS

TITLE/ TYTUŁ: Smooth sailing through the sea of words

07/12 /2020

DESCRIPTION/ OPIS:

In this hands-on workshop, I'll be exploring why this is problematic and how availability bias leads us to over-emphasise language that is far too often both uncommon and not particularly useful when it comes to helping students develop communicative competence in a goal-oriented manner. I will then move on to discuss the importance of the examples teachers give (both orally and on the board) of new lexis that they are teaching, and look at how an awareness of our own unconscious biases can help us to make better use of dictionaries, exploit classroom texts more rigorously and result in better and more focused vocabulary teaching – and learning.
