CONTINUOUS IMPROVEMENT OF TEACHING AND LEARNING QUALITY WEBINARS

TITLE/ TYTUŁ: Helping Students Increase Cognitive Potential
Using Social and Emotional Learning

08 / 04 / 2021

DESCRIPTION/ OPIS:

Research shows that SEL not only improves achievement by an average of 11%, but it also increases prosocial behaviors (such as kindness, sharing, and empathy), improves student attitudes toward school, and reduces depression and stress among students (Durlak et al., 2011).

However, for a variety of reasons, “soft skills” such as self-regulating, relationship competence and decision making may not be explicitly addressed in our curriculum. This workshop will introduce tools and language to equip teachers to address talking about emotions.
